We would like to inform you that the caption of Fig. 4 is wrong. Below you can find the correct caption.

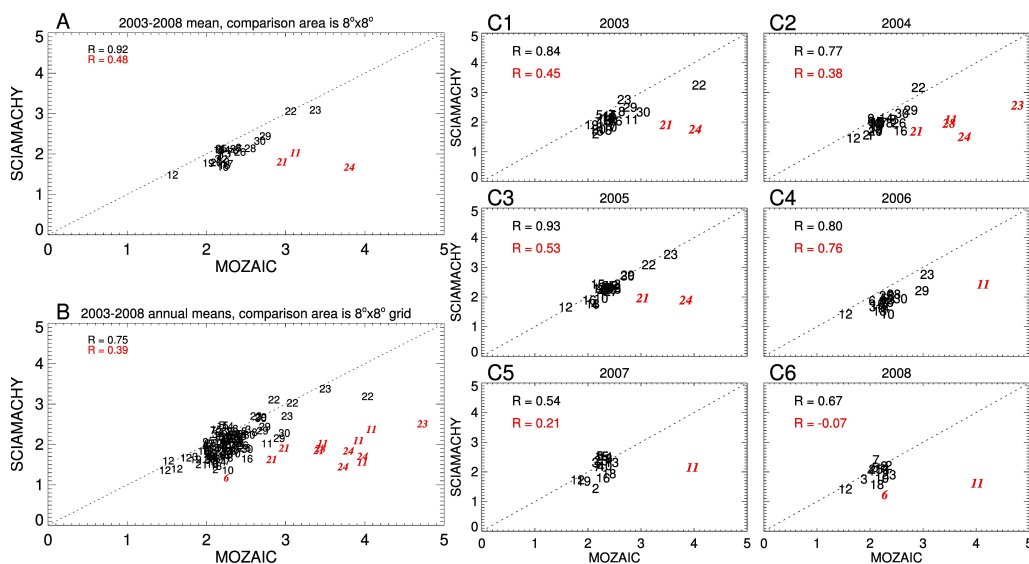

Fig. 4. (A) Scatter plot of SCIAMACHY and MOZAIC 2003–2008 mean CO total columns for the locations shown in Figs. 2 and 3. Stations are numbered according to Fig. 2 and Table 1. Red colored numbers indicate locations where the absolute differences between SCIAMACHY and MOZAIC are larger than 1×10^{18} molecules cm^{-2} . The correlation values correspond to the correlation for all locations (red value) and correlation with locations where absolute differences between SCIAMACHY and MOZAIC is larger than 1×10^{18} molecules cm^{-2} removed (black value). (B) Similar to (A) but for all annual means for the period 2003–2008. (C1–C6) Similar to (B) but for every year separately.
